Alumni Directory

HOWARD UNIVERSITY

Washington, D. C.

L.C. 2851
H821a
1919

Foreword

In preparing this Alumni List, no pains have been spared to make it as accurate as possible. Records of all departments have been consulted; the Medical Book of 1900, the catalogues for every year, and the Alumni Catalogue of 1896 have been used, and, as the fundamental source of information, the minutes of the Board of Trustees have been studied. Where conflicting statements and discrepancies have been detected the records have been traced back until the error has been corrected, and every effort has been made to make this Roster of the Graduates of Howard University a handbook which shall be of value to all interested in the University. In its present form it is incomplete and is but a starting point for a more complete and detailed register. Although the work has been carried on systematically and persistently for three years, it has been impossible to get accurate information about many former students, and some of the information that has been collected is now in need of correction due to changes which have occurred since the material was sent in. It is hoped that this published list may awaken enough interest on the part of the Alumni so that the present plan of having records kept, through the contributions which the Alumni Association of Washington make each year, may be extended. If the graduates themselves will send information to the University, a much more interesting and complete directory can be speedily prepared. This record is put into the hands of Howard men and women with the hope that it may prove useful in itself and be the means by which an adequate register may be compiled. As it is now presented, it represents hours of labor on the part of members of the faculty, trustees of the University, and graduates of the different departments who have co-operated in gathering together the information.

The plan has been followed of grouping graduates according to the year of graduation rather than by departments. This is in accordance with the practice of some of the best Universities of the country. The full record of a man's graduation, if he has studied in several departments, is found in the department from which he first was graduated. To find that, the reader should turn to the general alphabetical list and, after finding the name with the department and year of graduation given after it, should then turn to that department under the proper year and find the graduate's name given in alphabetical order. Women graduates who have married are given, so far as possible, under three names—their maiden name, their married name, and their husband's name. Former students who did not graduate have been omitted by necessity since it was not possible to obtain information which would be at all accurate and trustworthy.

ALPHABETICAL LIST OF GRADUATES	136

EXPLANATION.

* or † before the name of a graduate indicates that the graduate has died.

() around a graduate's address indicates that that is the last address known and that it has not been verified.

(1) after the name of a department heading indicates that the graduates of that department are listed as given in the minutes of the Board of Trustees.

(2) after the name of a department indicates that the graduates of that department are listed as given in the Alumni Catalogue of 1896.

(3) as in the University Catalogue of that year.

(4) as in the minutes of the Executive Committee.

(5) as in the records of the School of Theology.

The history of Howard University Medical Department as edited and compiled by Daniel Smith Lamb, A. M., M. D., in 1900, has been used freely to settle doubtful points in the records of graduates of the Medical School.
